CALL FOR APPLICATIONS
Funding for international mobility grant
Graduate Programmes

The Graduate Programmes are launching a call for mobility projects to promote international mobility for students registered in a Graduate School affiliated to the Graduate Programmes.

There is no restriction on the duration of the mobility period. However, the maximum amount allocated per project is 3000 €.

The application procedure and conditions are provided hereafter.

Granting scholarships terms and conditions:

1/ This call is addressed to all PhD students who are affiliated with the Graduate Programmes

2/ The selected PhD students will start their mobility **after March 2nd, 2026** and finish it before **December 31st, 2026**. Mobilities outside of these dates will not be taken into account.

OBS: you will have to fill up the last form (STEP 3 Mobility) **before December 14th, 2026.**

3/ The mobility can be carried out in foreign laboratories, foreign public and private institutions, summer schools, archives, international organizations, and other institutions relevant to the research or internship of students. **Conferences are not eligible.**

4/ The selection will be made based on the following criteria:

- Relevance of the mobility project to the themes of the PhD researches pursued
- Relevance of the mobility project to the candidate's professional or research career plan
- Quality of the host institution and of the local supervisor
- Quality of the applicant's academic record

5/ If you have other fundings for this mobility, please make sure that you can combine the Graduate Programmes mobility grant with your other funding.

6/ The grantee agrees to present her/his work during a scientific day organized by the Graduate Programmes, if requested.

Application procedure:

To complete your application, please log in to the Graduate Programmes Portal on the MoveOn platform: https://univlille.moveonfr.com/form/63569462b99b4f3b2b6c0d14/eng by **March 31st, 2026.**

For any further questions or concerns you may have, please contact the administrative officer, at:

grants-graduate-programmes@univ-lille.fr

Projects will be selected by a committee composed of the Graduate Programme coordinators, the administrative officer of the Graduate Programmes and the directors of Graduate Schools involved. Results will be announced directly to the applicant via email no later than **April 29th, 2026.**

The allocated grant is calculated based on a **weekly flat rate of EUR 150 € with an increase of +50% for the first 4 weeks to cover travelling expenses. 70% of the grant is paid upon the student's arrival and 30% upon his/her return after a report on the mobility has been submitted to the Graduate Programmes office ***

If we do not have your mobility report, on the Move-on platform after your mobility, the Graduate Programmes Team will not unlock the balance payment.

E.g. 2 weeks: 2x150x1,5 = 450 € ; 12 weeks: 4x1.5x150+ 8x150 = 2100 €

Under no circumstances can the financial support of a mobility project be retroactive, the mobility must start after the date mentioned above.

The international mobility grant is awarded on the basis of the submitted project. Any change in the destination or duration may void the grant and must be reported as soon as possible to allow for a new examination of the project. The amount of the grant may be recalculated downwards depending on whether the number of weeks matches the agreement with the welcoming establishment submitted prior to payment, but no increase in the amount will be made. If the mobility is not fully completed, the Graduate Programmes reserve the right to withhold payment of the student's balance.

* The student must be able to have a certain amount of money with him/her before to insure the first weeks of the mobility as the payment takes 2-3 weeks to arrive on the bank account.
